

Jessica Rudman

Twisted Blue

Three Movements for Clarinet and Piano

2011, Rev. 2014
ca. 16:30

Twisted Blue

Performance Notes

- An **X** in place of a time signature indicates an unmeasured section. The duration of each such section is given above in seconds. For numbering purposes, any unmeasured section is counted as one bar.
- In unmeasured sections, stemless noteheads followed by solid horizontal lines represent notes held for an indeterminate length. The proportions of the lines give a general sense of how long the notes should be held.
- Rests in parentheses are approximate.
- In unmeasured areas, runs notated with feathered beaming are to be played extremely freely. In metered sections, specific durations in beats or portions of beats are given for feathered beaming.
- Boxed figures should be repeated for the length of the thick black line that follows.
- Arrows indicate a gradual change from one state to another (ie. from ord. to sul. pont.).
- “Irr. vib.” stands for irregular vibrato.
- Grace notes should be played before the beat.
- Trills are half-step.

Program Notes

Twisted Blue was written for clarinetist Dan Liptak to perform with the Hartford Independent Chamber Orchestra conducted by Erberk Eryilmaz. The title comes from the bluesy progression that forms the basis of the second movement, which was in fact composed first in a few frantic fall afternoons. The opening movement followed, and then the finale.
